Re: NJPDES Application No. NJ0000221/Notice of Administrative
Deficiency
Facility: Perth Amboy Refinery
Municipality: Perth Amboy City
County: Middlesex
Discharge Activity: Surface Impoundment Discharge to
Groundwater (DGW) - Industrial/Commercial

Dear Mr. Tormey:

The Department has received your application for a New Jersey Pollutant Discharge Elimination System (NJPDES) permit and finds that it is administratively incomplete. The Department's review indicates that the following information has not been submitted.

1. Item 8a - "Source of Water Supply" on the CP#1 form.
2. Certification signature (Item 11 on CP#1 form) by a corporate official of vice president level or above.

This information must be submitted within 30 calendar days from your receipt of this letter if your application is to receive further consideration by the Department.

Please be advised that Chevron U.S.A. may request an extension of the 30-day time period. Such request must be in writing and received by the Department prior to expiration of the 30 day time period. The request should be made to my attention.

Your application has been reviewed administratively. Our technical staff will review for technical deficiencies and you may also receive a Notice of Technical Deficiency.

In order to assist you in the completion of your application, please do not hesitate to contact Mr. John Abolins of my staff at (609) 984-4428. Although the Department anticipates that the above deficiencies will be corrected in a timely manner, the Department is taking this opportunity to notify you of the action which the

Department may institute if you fail to comply. If the applicant fails to correct said deficiencies to the satisfaction of the Department within the 30-day time period, or approved extension period, the permit may be returned or denied and/or appropriate enforcement action may be taken for discharging without a required NJPDES permit and failure to submit a timely and complete application. Be on notice that the maximum civil penalty for violation of the Water Pollution Control Act, N.J.S.A. 58:10A-1 et seq. is \$25,000 per day. In addition, the Department may assess a civil administrative penalty for each day of violation of the submission requirements as follows:

- | | |
|--------------------------------|--------------|
| 1. One to three days late: | No penalty |
| 2. Four to ten days late: | \$10.00/day |
| 3. Eleven to twenty days late: | \$25.00/day |
| 4. More than twenty days late: | \$100.00/day |

This penalty schedule shall not supercede any liability under any existing or future enforcement action.

Thank you for your timely response and please do not hesitate to contact Mr. Abolins if you have any questions.

Very truly yours,

Ellen Radow, Chief
Office of Permits Administration
Water Quality Management
